### [2.9 R E S E A R C H SOFTWARE ENGINEERING](#)

Software design, development and integration are often plagued by sched- ule delays, cost increases, performance problems and defects. Data indi- cate that 60-80% of the cost of software development is in reworkthat is, fixing defects that are found during testing. And, as our systems become more interconnected in networks, the stakes are rising. Defects in products that are linked to the Interne...
